RBD appointed as USA distributor!

Above—Home of RBD in Bend, OR
Below—An RBD Ion Gun

Torr Scientific is delighted to announce the appointment of RBD Instruments as its USA distributor. RBD aims to bring innovative and affordable products to the surface analysis community focusing on small niche areas where the needs are not being met by the other surface analysis instrumentation companies. The appointment brings great opportunities to distribute TSL's UHV viewport and AR coating ranges to RBD's established surface science customer base. There are also exciting prospects to combine TSL's expertise in X-Ray anodes, filaments and phosphor screens, plus development of advanced X-Ray source solutions, with the surface science systems, knowledge, service and support provided by RBD Instruments. 'We are excited about the synergies between RBD and TSL' said TSL MD David Bates, 'we look forward to developing our business in the USA'. Contact details can be found on the company website, www.torrscientific.co.uk

PIER TO PIER WALK

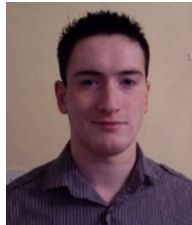

Employees of TSL are taking part in a 16 mile charity walk, from Eastbourne Pier to Hastings Pier, on Sunday 26th September in aid of the company charity, www.rockinghorse.org.uk

TSL Products:

- AR Coatings
- UHV Viewports
- X-ray sources
- CVD Diamond
- Phosphor Screens
- Filaments
- UHV Components

New Employees Welcomed at Torr...

Production technician, Mark Craig, joined TSL in November. Mark's previous experience included working as a glass blower and calibrator for a company producing scientific laboratory glassware which helped Mark to settle well into TSL viewport production team.

Torr Scientific's youngest employee, Coral Neale, joined the company in October 2010 as the Office Junior. Coral provides valuable support with various office duties and has organised vacuum component stock checks and company newsletter mailings.

Torr Scientific is very pleased to announce the latest appointment of Ian McGlashan as company sales coordinator. Ian has gained 12 years experience working for manufacturers and suppliers of UHV products. Please email sales enquiries to sales@torrscientific.co.uk

Chief Executive visits TSL Factory

Chief executive of Rother District Council, Derek Stevens, recently visited the new location of Torr Scientific Ltd. 'It's fantastic that Bexhill can be the home of such a high tech business' said Mr. Stevens.
