Torr's Quality Transition

Torr Scientific is pleased to announce the successful transition from the existing 2008 standard to ISO 9001:2015. The company passed the transition audit which was undertaken by 'BSI', demonstrating its quality management system meets the requirement of the new standard. Paul Roby, Quality Manager, is pictured proudly showing the new certificate.

Torr Scientific's 20th!

Staff and guests of Torr Scientific celebrated the company's 20th birthday by enjoying a charity night raising £1540 for The Rocking-horse Charity. The celebration which was held at The Manor Barn in Bexhill on Friday 7th September included a casino, raffle and live music and was supported by customers of Torr Scientific and local businesses. Speakers included Terrina Barnes, Corporate Fundraising Manager for Rockinghorse and space scientist Dr. Maggie Aderin-Pocock, presenter of the TV programme The Sky at Night.

Heathrow Airport Grant Winners

Torr Scientific has been named among the winners of Heathrow's World of Opportunity grant programme. The World of Opportunity Programme, now in its second year, sees Heathrow working in partnership with the Department for International Trade's (DIT) 'Exporting is GREAT Campaign', to award each SME £2,000 to fund their trade missions as they look to expand their businesses abroad.
