

TORR SCIENTIFIC LTD

ENVIRONMENTAL POLICY

At Torr Scientific we design, manufacture and supply UHV, Optical & X-Ray Components that brings together a unique range of expertise, skill, and equipment. We are committed to minimising the environmental impacts and risks arising from our activities, products and services and have made it our mission to ensure that:

- Torr Scientific's Directors / Senior Management are committed to promoting responsibility for the environment within the organisation by communicating and implementing this policy at all levels within Torr.
- We comply with all relevant environmental legislation and regulation.
- We are committed to the protection of the environment, including prevention of pollution and other specific requirements relevant to our organisation.
- We educate, train, and motivate employees to carry out tasks in an environmentally responsible manner and ensure that a continuous professional development strategy remains core to our business goals.
- Solar panels are installed to offset our consumption of electricity and reduce our carbon footprint.
- To prevent pollution, we reuse and recycle whenever possible to do so to reduce waste and minimise the consumption of resources.
- Ensure that Hazardous substances and Chemicals are correctly and safely stored and only used by fully competent and trained personnel. In addition to this our used hazardous and chemical waste is collected by an authorised hazardous waste company to comply with current legislation and to protect our working environment, including surrounding areas.
- We take responsibility to ensure our working environment and areas surrounding our company conserves conservation and protecting biodiversity.

We are committed to the continual improvement of our environmental performance and have ensured that our Environmental Policy is reviewed annually and has been communicated to all our employees with copies available on request for Customers, Suppliers, and other interested parties.
